

LOOKING FOR STUDENTS To Support Summer School !

International Summer School on Chromatin Dynamics 2016

DATE: September 1 (THU) ~ 4 (SUN), 2016

**PLACE: Research Center for the Mathematics on Chromatin Live Dynamics,
Hiroshima University (Higashi-Hiroshima, Japan)**

The Research Center for the Mathematics on Chromatin Live Dynamics (RcMcD) will provide an introductory course on analysis of live imaging data of the cell nucleus. The course is comprised of image processing practice and lectures on the physics and mathematical analysis beyond.

We also are looking for students to support this summer school.

If you are interested in this seminar, why don't you join and study with our researchers?

It will be an valuable time for you and researchers to research and study together!

【Program】

- September 1 (Thu) Opening, General Introduction
- 2 (Fri) Lecture, Luncheon seminar, and Practical Course (image processing)
- 3 (Sat) Lecture, Luncheon seminar, and Practical Course (analysis)
- 4 (Sun) Presentation, Closing

*The program starts around 17:00 on September 1 and ends around 12:00 on September 4.

【How to Apply】

Please send the followings to RcMcD Office by e-mail.

[Name, Grade, Affiliation, Mail address, Cell phone No, Period to support our Summer School]

【Deadline】

June 30 (Thu) *We may close earlier if the positions have been filled.

【Number of students to support】

As the number of students to support is limited to 8, there may be selection.

【Reward】

@800 Yen/ 1 hour
